Graphic Capabilities

	<u>Advantages</u>	<u>Disadvantages</u>
Video Camera (Color AOBG)	<ul style="list-style-type: none"> - Proven Technology - Reliable - Available - "Low" cost - Transmits any kind of image 	<ul style="list-style-type: none"> - High bandwidth - Lower resolution - Limited to paper map availability
Video Disc (Video Atlas)	<ul style="list-style-type: none"> - Solves problem of map availability - Good technology - Rather low cost - Resolution better than above option 	<ul style="list-style-type: none"> - Recording map images - Developmental effort - Must have recorded it to transmit it
Digital (Nat Trng Cntr System)	<ul style="list-style-type: none"> - Excellent resolution - Highly versatile - Automates plotting - Continuous slew, zoom - Cadillac 	<ul style="list-style-type: none"> - Technology near at hand but not now available - Expensive - Lots of processing power needed
